Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. The amendment filed on January 4, 2006 has been received.
2. Applicant's election of Specie B, Fig. 2-5, claims 1-6 and 8-24 in the reply filed on January 4, 2006 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)). Claims 8 and 9 are withdrawn because both dependent claims read on Specie A, fig. 1.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-6, 10, 12-21, 23, and 24 are rejected under 35 U.S.C. 102(b) as being anticipated by Baba et al. (US 4,593,953).

Baba et al. disclosed, as shown in fig. 1-2, a protection device for protecting a brake disk in a disk brake from dirt particles, said device comprising: at least one protection means 7, 8 for effectively preventing dirt particles and relative wind from directly striking a brake disk when said protection means is disposed in a first end position and for allowing relative wind to directly strike said brake disk when disposed in a second position; said at least one protection means for partly surrounding said brake

disk when installed and mountable on a vehicle's wheel suspension, said at least one protection means being at least partly constructed from material that is shaped-influenced by heat such that said at least one protection means assumes said first end position when temperature of said protection means lies below a first temperature and assumes said second end position when said protection means exceed a second temperature (see col. 3, lines 21-40).

5. Claims 11 and 22 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mariano Sy whose telephone number is 571-272-7126. The examiner can normally be reached on Mon.-Fri. from 8:30 A.M. to 2:30 P.M.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James McClellan, can be reached on 571-272-6786. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
